

**Annual Report  
July 2024**

Following is the review of the Goals & Objectives for July 1, 2023 to June 30, 2024:

**Goal # 1: Develop and provide Suboxone at our Lancaster location**

- The Lancaster location has continued to offer and provide Suboxone services to community members in need. The program requires participation in Med Management, Outpatient SUD Services and Care Coordination Services. Ponessa Behavioral Health is starting to implement and provide suboxone services in our Lebanon Location.

**Goal # 2: Expand SUD staff to include additional therapists. Hire and train therapists. Maintain the appropriate DDAP client to therapist ratios.**

- Each site was able to grow in the number of therapists. This goal will be continued because we are working to continue to grow in each location.

**Goal # 3: Develop and expand the Recovery Specialist programming within the community and throughout the facility.**

- PBH continues to work on expanding Care Coordination and Certified Recovery Specialist services in our Lancaster and Dauphin County Offices. Policies and procedures have been updated, as needed, to best guide care coordinators/ CRSs in their position. PBH's Lebanon Location plans to begin offering CRS services beginning in August 2024

Cathy DeGuire, MS, JD, MBA is the CEO and Governing Body of Ponessa Behavioral Health
